

# KIDOSCOPE

Hello!

The monsoon has now set in. There is greenery everywhere. But, in some places of India, rain is showing its dangerous form. Landslides and floods have started in some places of India. There is also water logging in certain areas of Ahmedabad.

Also, we have observed the aviation incidents of recent months and made an article on it.

Everyone must've got used to waking up early. Luckily, I'm in the afternoon shift. We are announcing a painting contest on Rakhi. And we're also launching a writing contest on Independence Day. Please send your entries on our Instagram handle (@kido\_scope) or mail ID (info@kidoscope.co.in.).

Warm regards,  
Team Kidoscope.

And Win Exciting Prizes

LAST DATE: 9<sup>th</sup> AUGUST, 2025

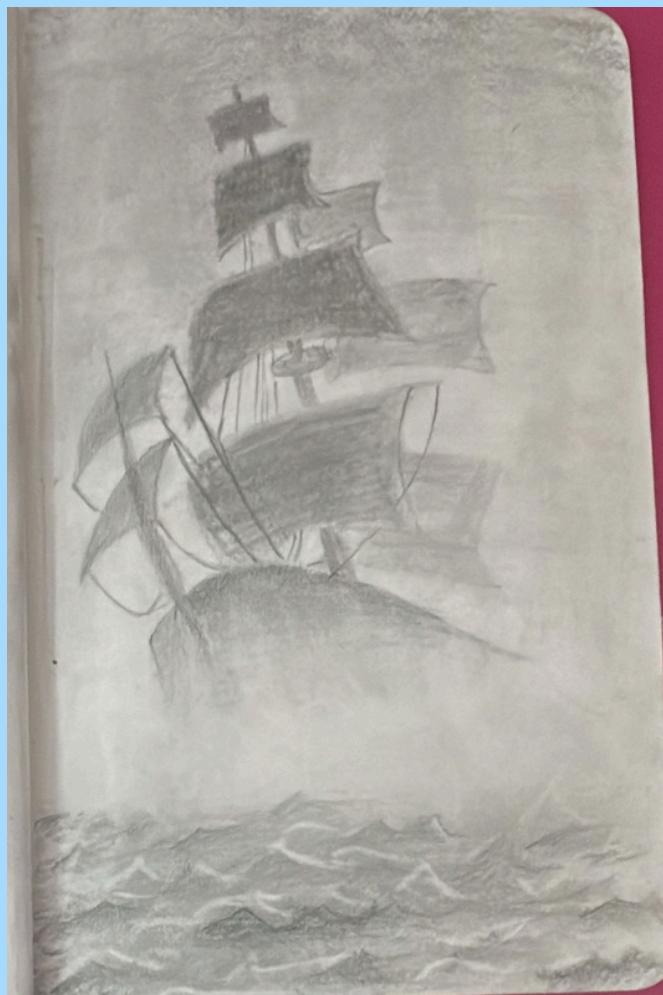

# FEAR IN THE AIR

After the Ahmedabad AI-171 crash, there has been a lot of fear in air. At first,, air travel was considered the most exclusive means of travel and only big industrialists travelled in it. Then some more people started to travel in it and it became a bit common. Then it became common, and everyone started to travel in it. But all this while, it was considered the safest means of travel. But now it's the most dangerous. Let me tell you about 2 recent incidents:

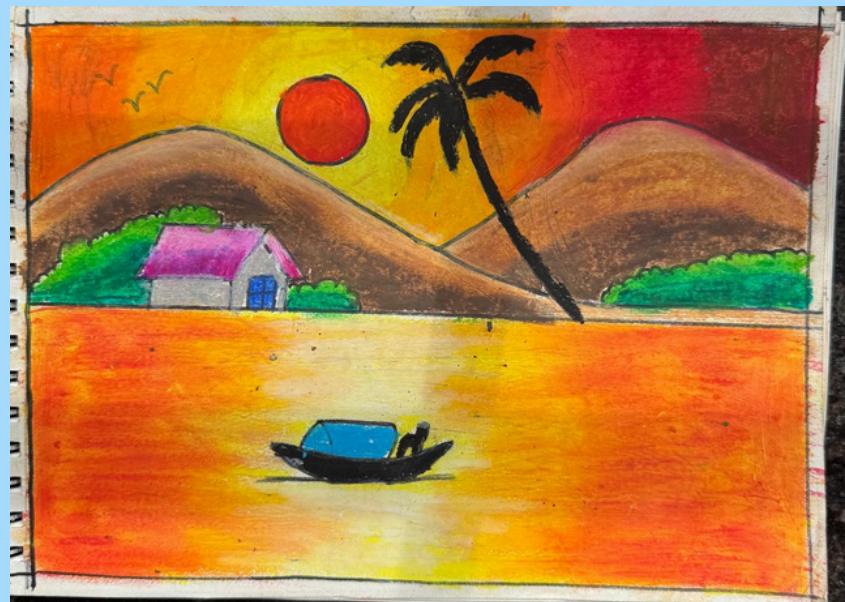

- On 30<sup>th</sup> June, A Japan Airlines flight JL8696, which was operated in partnership with Spring Japan, took off from Shanghai Pudong Airport. But, the plane descended drastically from 36,000 feet to 10,500 feet in 10 mins.
- An Indigo flight en route from Guwahati to Chennai made an emergency landing at Bengaluru International Airport. Because, it had very less fuel left. And, it had to 'go around' at Chennai Airpor. So, it declared 'Mayday' and made an emergency landing in Bengaluru.

# **LONDON PLANE CRASH**

On 13<sup>th</sup> June, a small plane crashed seconds after take off from Southend Airport. Eyewitnesses reported that they saw a huge fireball, and a huge cloud of smoke enveloped the area. It was a terrifying moment. The videos on social media show the horrible moment. It was a connecting flight from Greece to Croatia to London. All the people (4) on board were reported dead by the local police.

## **AI-171 CRASH UPDATE**

According to the official report, the crash impacted 5 buildings. The fuel supply was cutoff from both the engines. In the recording, one pilot was heard asking another, 'Why did you cutoff the fuel', while the other responded, 'I did not do so'.
